

# CARNESIUM<sup>TM</sup> BENEFITS

## CARNESIUM<sup>TM</sup> BLUE FOR BRAIN HEALTH

Increases memory and delays mood related changes in aging. Methylene Blue at low doses serves as an electron cyler in the mitochondrial electron transport chain. By acting as an alternative electron acceptor/donor Methylene Blue helps to optimise mitochondrial function and thereby improves neuronal energy production and limits the damaging effect of oxygen radicals. Methylene Blue may aid to improve mood and mental alertness. May cause discoloration of the urine.
